

12.07.2012

To whom it may concern.

Please be informed that unfortunately we are not in a position to supply you with the requested material safety data sheets (MSDS) as documentation to our products.

The area of application of MSDS is specified within the Article 31 and appendix II of the regulation (EG) Nr. 1907/2006 (REACH-regulation) in addition to § 6 Hazardous material regulation (GefStoffV). These regulations request the first marketer or manufacturer of hazardous materials to issue MSDS.

Following the hazardous materials regulation none of our products is considered to be a hazardous product or to consist of any hazardous materials.

Furthermore legal basis is the scope of the already cited legal regulation and the REACH-exemptions:

“2. Substances contained within products in the finished state, intended for the end user, falling into scope of the following European Directives and Regulations are exempted from the following Parts of REACH: Title IV (Information in the supply chain) [Article 2(6)]

- Medicinal products (as per the bullet point above);”

EVE Ernst Vetter GmbH products are medical products in terms of the medical device law §3.

Consequently the requirements of the hazardous medical regulations do not apply.

Kind regards EVE Ernst Vetter GmbH

(Dipl.-Chem. Markus Schmidtke)
