SAFETY DATA SHEET

SDS # : 083926  MULTIS COMPLEX EP NA 2

Date of the previous version: 2015-05-06  Revision Date: 2015-10-13  Version 1.01

1. IDENTIFICATION

Product identifier

Product name
MULTIS COMPLEX EP NA 2

Other means of identification

Product Code(s)  083926
Number  83A
Substance/mixture  Mixture

Recommended use of the chemical and restrictions on use

Identified uses  Extreme pressure. Lithium Grease. Industrial Grease.
Uses advised against  Do not use for any purpose other than the one for which it is intended

Details of the supplier of the safety data sheet

Supplier Address
TOTAL Specialties USA Inc
1201 Louisiana Street, Suite 1800
Houston, TX  77002
Phone: +1 800 323 3198

Contact Point  Technical/ HSEQ
E-mail Address  USRMLIN-info@total.com

Emergency telephone number
Company Phone Number  +1 (908) 862-9300
Emergency telephone  CHEMTREC: +1 800 424 9300 (24h)

2. HAZARDS IDENTIFICATION

Classification
This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Label elements
This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)
SDS #: 083926
MULTIS COMPLEX EP NA 2

Date of the previous version: 2015-05-06  Revision Date: 2015-10-13  Version: 1.01

Unknown Acute Toxicity
Not applicable

Hazards not otherwise classified (HNOC)
None known

Other information
Physical-Chemical Properties  Contaminated surfaces will be extremely slippery.
Environmental properties  Should not be released into the environment.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Additional information  Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

4. FIRST AID MEASURES

First aid measures for different exposure routes
General advice  IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.
Eye contact  Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while rinsing.
Skin contact  Remove contaminated clothing and shoes. Wash off with soap and water. Wash contaminated clothing before reuse. Wash skin with soap and water. Get medical attention if irritation develops and persists. High pressure injection of the products under the skin may have very serious consequences even though no symptom or injury may be apparent. If high-pressure injuries occur, immediately seek professional medical attention.
Inhalation  Move to fresh air. If not breathing, give artificial respiration. If not breathing, give artificial respiration. Get medical attention immediately if symptoms occur. Inhalation of high concentrations of vapor or aerosols may cause irritation of the upper respiratory tract.
Ingestion  Do NOT induce vomiting. Rinse mouth. If symptoms persist, call a physician. Never give anything by mouth to an unconscious person.
Protection of First-aiders  Use personal protective equipment.
**Most important symptoms/effects, acute and delayed**

**Skin contact**
May cause slight irritation. High pressure injection of the products under the skin may have very serious consequences even though no symptom or injury may be apparent.

**Eye contact**
May cause slight irritation.

**Inhalation**
Not classified. Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Ingestion**
Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Symptoms**
Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Itching.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
Treat symptomatically.

---

**5. FIRE-FIGHTING MEASURES**

**Suitable Extinguishing Media**
Carbon dioxide (CO$_2$). Foam. Water spray or fog. Dry chemical. Sand. ABC powder.

**Unsuitable Extinguishing Media**
Do not use a solid water stream as it may scatter and spread fire.

**Special Hazard**
Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

**Explosion Data**

**Sensitivity to Mechanical Impact**
None.

**Sensitivity to Static Discharge**
None.

**Protective Equipment and Precautions for Firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Evacuate non-essential personnel.

---

**6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

**General Information**
Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not touch or walk through spilled material. Contaminated surfaces will be extremely slippery. Use personal protective equipment. Ensure adequate ventilation.

**Other information**
See Section 12 for additional information.

---

**Environmental precautions**
General Information
Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained. Try to prevent the material from entering drains or water courses.

Methods and materials for containment and cleaning up
Methods for cleaning up
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Powdered material may form explosive dust-air mixtures. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Use mechanical means such as pumps and absorbent materials.

7. HANDLING AND STORAGE

Precautions for safe handling
Advice on safe handling
When using, do not eat, drink or smoke. For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing.

Prevention of fire and explosion
Take precautionary measures against static discharges. Ground/bond containers, tanks and transfer/receiving equipment.

Hygiene measures
Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets.

Conditions for safe storage, including any incompatibilities
Technical measures/Storage conditions
Keep away from food, drink and animal feedingstuffs. Keep in a bunded area. Keep container tightly closed. Keep preferably in the original container. Otherwise reproduce all indication of the regulation label on the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture. Store contents under <50 °C.

Materials to Avoid
Strong oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters
Exposure limits
Mineral oil mist:
USA: OSHA (PEL) TWA 5 mg/m³, NIOSH (REL) TWA 5 mg/m³, STEL 10 mg/m³, ACGIH (TLV) TWA 5 mg/m³ (highly refined).
Exposure controls

Engineering Measures
Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment.

Individual protection measures, such as personal protective equipment

General Information
If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers. These recommendations apply to the product as supplied.

Eye/Face Protection
If splashes are likely to occur, wear: Safety glasses with side-shields.

Skin and body protection
Wear suitable protective clothing. Protective shoes or boots.

Hand Protection
Hydrocarbon-proof gloves. Fluorinated rubber. Nitrile rubber. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.

Respiratory protection
None required under normal usage. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

Hygiene measures
Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets.

Version GNAM
10. STABILITY AND REACTIVITY

Reactivity
None under normal processing.

Chemical stability
Stable under recommended storage conditions.

Possibility of hazardous reactions
None under normal processing.

Conditions to Avoid
Heat (temperatures above flash point), sparks, ignition points, flames, static electricity. Heat, flames and sparks. Take precautionary measures against static discharges. Strong oxidizing agents.

Incompatible Materials
Strong oxidizing agents.

Hazardous Decomposition Products
None under normal use.

11. TOXICOLOGICAL INFORMATION
Acute toxicity

Product Information
Product does not present an acute toxicity hazard based on known or supplied information.

Information on likely routes of exposure

Principal Routes of Exposure: Inhalation, Ingestion, Eye contact, Skin contact.

Numerical measures of toxicity

Information on toxicological effects

Symptoms
Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Itching.

Skin contact
May cause slight irritation. High pressure injection of the products under the skin may have very serious consequences even though no symptom or injury may be apparent.

Eye contact
May cause slight irritation.

Inhalation
Not classified. Inhalation of vapors in high concentration may cause irritation of respiratory system.

Ingestion
Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization
Not classified as a sensitizer.

Carcinogenicity
This product is not classified carcinogenic.

Mutagenicity
This product is not classified as mutagenic.

Reproductive toxicity
This product does not present any known or suspected reproductive hazards.

Other adverse effects
Characteristic skin lesions (pimples) may develop following prolonged and repeated exposures (contact with contaminated clothing).

Aspiration Hazard
Not classified.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Acute aquatic toxicity - Product Information

No information available

Acute aquatic toxicity - Component Information

No information available
Chronic aquatic toxicity - Product Information

No information available

Chronic aquatic toxicity - Component Information

No information available

Effects on terrestrial organisms

No information available.

Persistence and degradability

General Information

No information available.

Bioaccumulative potential

Product Information

Some constituents of this product may potentially bioaccumulate.

logPow

No information available

Component Information

No information available.

Mobility

Soil

Given its physical and chemical characteristics, the product has no soil mobility.

Air

Loss by evaporation is limited

Water

The product is insoluble and floats on water

Other adverse effects

General Information

No information available

13. DISPOSAL CONSIDERATIONS

Waste treatment

Waste Disposal Methods

Dispose of in accordance with local regulations. Should not be released into the environment.

Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal.
14. TRANSPORT INFORMATION

DOT  Not regulated
TDG  Not regulated
MEX  Not regulated
ICAO/IATA  Not regulated
IMDG/IMO  Not regulated
ADR/RID  Not regulated
ADN  Not regulated

15. REGULATORY INFORMATION

International Inventories  All the substances contained in this product are listed or exempted from listing in the following inventories:
U.S.A. (TSCA)
Australia (AICS)
China (IECSC)
Korea (KECL)
New Zealand (NZIoC)
Philippines (PICCS)
Canada (DSL/NDSL)

U.S. Federal Regulations

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372:

SARA 311/312 Hazard Categories
- Acute Health Hazard  no
- Chronic Health Hazard  no
- Fire Hazard  no
- Sudden Release of Pressure Hazard  no
- Reactive Hazard  no

Clean Water Act
This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).
Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)
This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

CERCLA
This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

U.S. State Regulations

California Proposition 65
This product does not contain any Proposition 65 chemicals.

U.S. State Right-to-Know Regulations
No information available

This safety data sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user’s responsibility to ensure that he is subject to no other obligations than those mentioned.
